PARKING ADVISORY:

Parking on this course is limited. Please respect marked parking areas and understand that it is VITALLY important that we keep free lanes to move emergency vehicles in or out of the course. This is important for the safety of drivers, course workers and spectators and is a requirement of the Department of Transportation of NC and the Park Forestry Commission. They can stop the event if they see a problem.

Your trailer, vehicle, tow vehicle and equipment must be COMPLETELY outside the white lines on the side of the road. Please honor the Forest Law Enforcement Services request as this is a requirement for use of the site. Consider it a blend line... don't violate it.

The road we are racing on is a 4.2mile dead end road. The spectator parking will be on the side of the road for the first mile. Our drivers/entrants will be parking their vehicles on the side of the road beginning at the gravel area close to the pit area (100 yards from the start gate.) First come, first serve on spaces. Open Trailers will be stored in a gravel parking area where spectator parking ends and shuttle buses pick up spectators. We realize the parking is not ideal and we will work together, share tents and space to make it work. Event managers will work with park and community to improve paddock and parking. Thank you for cooperation and working through this minor obstacle in return for a great event site.
